7. AIMS & OBJECTIVES

This course aims to arouse students' awareness of how city, space and creativity are inter-related. Through introducing modern theories on city and space, this course also aims to enhance students' understanding of urban development and everyday spatial practice from political, social and cultural perspective.

8. COURSE CONTENT

This course introduces reflections of how city, space and creativity are inter-related. Through the study of concrete examples drawn from the local, regional and global context, this course investigates the social and cultural construction of various creative spaces in cities such as museum, gallery, studio, community art space, street and other public sphere; examines how spaces and places are shaped and how they in turn influence human subjectivities, behaviors, imaginations and creativity; and provides discussion of the possibility of understanding and imagining space in cities creatively

through different kinds of interpretation, intervention and invention.
